

## TaPS online - Schedules

### Schedule guidance notes

- Each school that books a TaPS online course will be asked to create a schedule for their experience.
- We recommend this takes place over an intensive period of time (1-2 weeks) rather than spread over a term.
- You can choose weekend 'slots' as well as class time and sessions before and after school if this suits the group.
- The sessions below must be scheduled chronologically except for the theatre performance and master class (see specific notes in table).
- Sessions should allow for 90 minutes for each of the **slideshow and activities sessions** and 90 minutes for each of the **interactive workshop sessions**.
- Sessions highlighted in green will be led by the ISTA student ensemble leader (SEL); sessions highlighted in blue will be just for you and the students to work on, on your own.
- Once completed we will allocate you an SEL and a MC leader and your EC will put these artists in touch with you.

### Schedule sample A

This TaPS online course spreads over two Saturdays and includes class time in between.

TaPS online course information			Session times scheduled by the teacher
