WHY IS THIS WORKSHOP OF VALUE TO STUDENTS?

Google recently analysed their workforce and hiring process to find out the skills that were most important to them when hiring new employees. Rather than skills in STEM subjects or having gone to an elite science based university, what came out top of the list were interpersonal skills – communication, social awareness, empathy, problem solving, the ability to connect complex ideas. When we look at the fundamental principles of the IB and the content of the DP Theatre course, we realise that it is a qualification that is setting students up for future success like no other. It develops all of these desirable skills like no other subject. In this course we will practically examine how students would use these critical life skills in DP Theatre, giving them a clear understanding of the value of the course.
