### Available for Organisation & Premium Membership:

#### ISTA™ Young Creative Leadership Programme

is an opportunity for high school students to develop their creative leadership skills. Students develop their skills through a series of reflective tasks, mentoring and attendance at a middle school festival in a leadership role. The student then plans how this leadership experience will be implemented in their own community. This is a powerful service learning opportunity and can be used as part of other leadership initiatives.

Contact ISTA's Engagement Manager to learn more
